## Local Matters.

### Sun and Tide Table.

Sun rises tomorrow at 6:22 a. m. and sets at 5:05 p. m. High water at 7:09 a. m. and 7:29 p. m.

### Weather Probabilities.

For this section partly cloudy to-night, Saturday fair; variable winds.

### The New Ferry Boat.

The new ferry steamer *Woodbury*, built at Wilmington, Del., for the Norfolk and Washington Steamboat Company, will leave Wilmington tomorrow morning and is expected to pass this city on her way to Washington some time next Sunday evening. She will make an excursion trip down the river Monday morning, leaving Washington at 11 o'clock and this city half an hour later. A number of invitations have been sent to officials, business men, newspaper men and others, and all are looking forward with pleasure to the trip.

The need of ferry communication between Alexandria and Washington has been seriously felt ever since the closing of the line by the burning of the old steamer *Columbia*, and the re-establishment of a line is looked upon with pleasure by the entire community.

The history of ferries between Alexandria and Maryland and Washington runs back to the nucleus of this city. In May, 1740, a ferry was established from Hunting creek warehouse to Frazier's Point, in Maryland. One shilling was charged to transport a man, woman or horse across the Potomac. Hunting creek warehouse was the forerunner of Belle Haven and Alexandria evolved from the latter. In October 1748, a ferry was established from the plantation of George Mason to Rock Creek, Md., and the fare prescribed was four pence. George Mason owned what is now called Annapolis Island with adjoining land on the Virginia side.

There appears to have been a ferry line between Alexandria and Washington when the latter was only a collection of hamlets containing unfinished public buildings and dwellings. A ferry between Alexandria and Greenleaf's Point (now the arsenal grounds) existed in 1798. This was probably the first ferry line that gave direct communication between this city and Washington. Since that time the ferry line had been in operation almost constantly up to the partial destruction of the steamer *Columbia*, May 13, 1903. For nearly a century sailing vessels and horse boats were used in the ferry service, and when steamboats made their appearance they were of a crude type and made generally but one trip a day. As the era of steam advanced more satisfactory steamers were placed on the ferry route, among them the *Phoenix* and *Joseph Johnson*. Many now living remember the rivalry carried on half a century ago by the owners of rival ferry steamers. At that time one boat ran from the foot of Queen street. The *George Washington*, Thomas Collier, Union and George Page, the last two double-enders, were the boats of those days. Subsequently the Page and Collier had the route to themselves and kept the line open up to the outbreak of the civil war. A ferry slip was then built on the strand, on the ground now occupied by the ice chute, between King and Prince streets, and double-end steamers, brought here from New York, ran on the route. There was a rival steamer, known as the *Young America*, that arrived at and departed from the foot of King street. The fare on the latter was five cents, and sometimes the double-end steamers transported passengers gratis in attempts to force the *Young America* off the line.

### Police Court.

[Justice H. E. Caton presiding.] The following cases were disposed of this morning:

James McLinn, arrested by Officer Lyles charged with conducting business without a license, was dismissed.

Harris Arnold, arrested by Officer Allen on suspicion of vagrancy, and selling cocaine was sent out of the city.

Laura Carroll, colored, arrested by Officers Beach and Allen for vagrancy, was sent to the work house for 30 days.

Jackson Hardy, colored, arrested by Officer Mayhugh charged with maintaining a nuisance on his premises, was dismissed upon promising to remove the same.

William Hansborough, arrested by Officer Smith charged with assaulting George Brooks, was dismissed.

### Death of Mrs. Cheving.

Mrs. Elizabeth Gilman Cheving, of Alexandria, widow of Robert T. Cheving, and who had been visiting her daughter, Mrs. C. P. Mahood, in Lynchburg, died Wednesday evening of a complication of diseases. She is survived by six children, all of whom reside in Lynchburg, except Mr. M. E. Gilman Cheving, of Washington. Mrs. Cheving was the daughter of Mr. and Mrs. Joseph T. Gilman, of Caroline county, and was married at Bowling Green on June 15, 1879. She was a member of the Baptist Church of this city and was 46 years old. Her husband was killed in this city several years ago by jumping from a moving train.

### Captain of Pungy Killed.

According to reports received from the lower river, Capt. Alex. Harris, of the punga boat *Vickery*, was shot and killed yesterday morning by the mate of an oyster police boat. A message from the telephone operator at Choptank, near Charlotte Hall, gave the information that Captain Harris had been killed by Mate Douglas Russell, of the police schooner *Bessie Jones*, and that the captain had been shot while on his vessel in the Potomac river. Captain Alexander Harris lived at Cambridge, Md. His remains were forwarded to Washington yesterday on one of the Potomac river steamers. No details of the shooting have been received.

### St. Asaph Pool Room.

The report circulated in Washington yesterday to the effect that the old St. Asaph pool room was to be reopened within the next ten days was erroneous. It may never be reopened unless sanctioned by a Virginia statute, the adoption of which is unlikely to occur. The denial is made by Mr. Lew Barges, who says he knows positively that Mr. Hill does not contemplate opening the St. Asaph poolroom, nor does he intend to back any other establishment of that character in the jurisdiction of Virginia.

### The Manassas Branch.

It is said in railroad circles that extensive improvements are contemplated to the Manassas Branch of the Southern Railway. President Spencer passed through this city this morning on a tour of inspection. It is again rumored that the Chesapeake and Ohio Railroad is to run most of its freight trains over the Manassas Branch to Alexandria. The trains, it is said, will run over the Shenandoah Valley Branch of the Norfolk and Western to Riverton, where they will be transferred to the Manassas road. Some say the latter is to be double-tracked, while others state that the Southern Railway Company is making preparations to lay heavy rails, strengthen the road bed and put in new iron bridges in order to meet the additional demands upon the road. Some suggest that a movement may be on foot to make a coal depot somewhere near Alexandria. These are practically the same rumors that were in circulation some months ago, but were then denied by the Southern officials who said that the heavy grades on the Manassas branch and the longer distance by that route would preclude any such arrangement.

### The Arnold Stock Company.

A good-sized audience last night witnessed the presentation of "The New York Mystery" by the Arnold Stock Company at the Opera House. This melodrama proved to be one of the best pieces the company has produced. Several sets of special scenery were used during the performance, notably among them being the old mill on the Hudson river. Louis Alumanis had the comedy role of Jasper Jessop and caused many a hearty laugh during his "love scene" with Kitty (Miss Lee Glover). Those deserving special mention were W. W. Shuttleworth, Clyde Franklin, Miss Musa Beal, Miss Pauline Seymour and last, but not least by any means, little Sadie Wheeler. The specialties were again very enjoyable, especially that of Peter Don. Tonight the Arnold company will present Oscar Wilde's famous comedy, "Lady Windermere's Fan," one of the best comedies on the stage today. This is strictly a comedy in every sense and those wishing a hearty laugh should see it. Special scenery will be used for each act and the stage costumes are said to be the prettiest of the week. For the convenience of the children a matinee will be given tomorrow afternoon at 2:30 o'clock.

### Circuit Court for the County.

[Judge C. E. Nicol presiding.] Com. vs. Wallace Twyman, colored, indicted for robbery and assault; jury and verdict of guilty of petit larceny and penalty fixed at 15 days in jail. Com. vs. Fred Lee, colored, indicted for housebreaking; jury and verdict of guilty and penalty fixed at three months in jail. Com. vs. Angello Lamecello, indicted for housebreaking and larceny; jury and verdict of guilty and penalty fixed at six months in jail. Nettie C. Elson vs. W. A. & Mt. V. Ry., suit for \$5,000 for damages for personal injuries; jury and case in progress.

### Depot Notes.

The surroundings of the new union depot are being improved and a number of men are now engaged in the work. The embankments upon which the tracks are situated are being graded, while those on the west of the depot are being sodded and flower beds prepared. Workmen are engaged in leveling the ground to the south of the depot where more concrete work is to be constructed, and others are engaged in digging the trench for water mains which will extend from a point on West End road to the depot building.

### The President's Train.

President Roosevelt's party, minus the President, passed through this city on its way to Washington at an early hour this morning. On Wednesday evening the President entertained his party at dinner on the "Signal." Reference was made to another term. "There will not be any next term for me," he said with emphasis. "I am now serving my last." "But suppose that you are nominated anyway?" "I will not be nominated," he exclaimed.

### Euchre Party.

Among the prizes to be given at the euchre party, to be held in the Lyceum, Monday night next, under the auspices of the Woman's Auxiliary are the following: Hall rack, two Haviland china salad bowls, Haviland chop dish, two sterling silver powder puffs, carving set, pictures, handsome chair, ferns, lamps, slippers, gentleman's umbrella, two tons of coal, an order for a gentleman's hat, cigars, whiskies, and many other prizes which space will not permit to mention.

### Bank at Rosslyn.

It is understood that a number of Alexandria county people will soon organize a bank to be located at Rosslyn in the county, at the south end of the Aqueduct bridge. A suitable building, it is said, has been secured for the purpose and the promoters expect to begin business at an early date. A number of industries are now located at Rosslyn. Among those interested in the bank enterprise are Messrs. M. E. Church, Frank Lyons and G. H. Rucker.

### Death of an Engineer.

Emil C. Dapp, an engineer in the employ of Reiter, Curtis & Hill, railroad contractors, died at his residence, 507 north Columbus street, yesterday. The deceased was 25 years old. He was a native of Harrisburg, Pa., and his remains will be forwarded to Philadelphia by Mr. B. Wheatley.

### Contract Awarded.

The Winchester and Washington City Electric Railway Company has awarded to the Westinghouse Electrical Supply Co., of Pittsburgh, the contract for furnishing electrical machinery for the plant near Millville, in Jefferson county, W. Va., and for the several stations which will be erected. The amount of the contract, which does not include wire to carry power from the plant, is said to be about \$60,000. The Westinghouse company was represented in the matter by Mr. Charles E. Stuart, formerly of this city, son of the late Judge Charles E. Stuart.

### SITUATION IN RUSSIA.

A dispatch from St. Petersburg says that two squadrons of Cossacks yesterday attacked 7,000 workmen, who were holding a meeting at the Nevski works. About a hundred workmen, it is reported, were wounded and seven Cossacks were injured by stones.

The railroad bridge across the Obvodny canal at St. Petersburg has been destroyed.

As the result of a series of special ministerial councils, under the presidency of Count Witte, held to adopt measures to deal with the industrial and political situation, the new national assembly law, and laws granting practical freedom, will be promulgated forthwith.

Interesting details have been learned regarding Count Witte's interview with Emperor Nicholas last week, at which it was agreed that the time had come to limit the autocratic power and give the people a real share in the government of the empire.

The Emperor asked Count Witte to speak frankly, and after listening to the statesman's exposure of the situation he appeared to be utterly unswayed by the deplorable state of affairs, and cried out that he was weary of the struggle, and felt like leaving all and fleeing to Darmstadt, hence probably the origin of the report that the Emperor was going abroad.

Count Witte, however, told the Emperor that in his opinion not even a republic could not save Russia from anarchy. It was the Emperor's duty to the people and the country to face the situation by meeting their wishes, namely, to abrogate the autocratic power and grant a constitution by creating a ministry responsible alike to the Crown and the representatives of the nation.
